Macalister Mansion / Malaysia

Ministry of Design Pte Ltd

An integrated experiential-design practice created by Colin Seah, Ministry of Design, it questions, disturbs and redefines the spaces, forms and experiences that surround us and give meaning to our world.

由設計師 Colin Seah 創立，專門從事綜合性體驗設計，擅長詰問、擾亂和重新定義環繞着我們和令世界有意義的各種空間、形狀和經驗。

HISTORY REWRITTEN Occupying a century-old mansion that has been conserved and adapted, the building contains five different dining and bar venues, plus eight hotel rooms. Here, guests are treated to the kind of hospitality and experience one might expect from a sizable and sumptuous historic home: dining room, whiskey and cigar lounge, Living Room (where modern Penang cuisine and high tea is served), and for some live music in the evenings, the Bagan Bar.

Named after Penang's former British Governor Colonel Norman Macalister, there are numerous references to him, captured in specially commissioned installation art pieces throughout the grounds. The project was developed by MOD in a multi-disciplinary fashion, employing a single concept and applying it across the architecture, landscape, interiors, art, branding and uniforms. This necessitated considerable attention to detail, from art curation through to door signage, name cards and coasters.

The heritage interiors were carefully re-modelled, retaining key features and infusing contemporary elements and technology, such as the reflective copper reception bar within the ornate entrance, and the Bang & Olufsen iPod docking stations in the guestrooms. The Mansion ranks on the Travel + Leisure 2013 Best New Hotels 'It List', among several other international accolades.

大宅重奏 百年豪宅經歷保育及改建，新面貌包括五間不同的餐飲場地和酒吧，以及八間酒店客房。以檳城前英國總督諾曼·麥卡利斯特上校的名字命名。他的影子出現在建築內每個角落，及於整個場內的裝置藝術。此項目由 MOD 以跨設計界別發展，採用同一概念，並貫徹應用於整個建築、景觀、室內設計、藝術、品牌和制服。這樣需要相當注重細節，從藝術品搜羅到大門上的標誌、名片及杯墊等，鉅細無遺。

古蹟的室內設計經小心修繕，保留主要特色，並注入現代元素和最新科技，如華麗入口處的銅金屬接待處與客房內的先進音響設備，形成對比。這個大宅項目屢獲國際殊榮，包括入選旅遊 + 休閒 2013 年最佳新酒店名單內。
